### Profile

As a highly motivated and ambitious software engineering student, I am committed to developing my skills and knowledge to become a proficient and versatile developer. I possess a strong foundation in programming concepts and languages such as Python, Java, and JavaScript. With experience in developing web applications and building responsive user interfaces, I am passionate about exploring new technologies and staying up-to-date with industry trends. I thrive in collaborative environments and enjoy working in teams to achieve shared goals. A quick learner with strong problem-solving abilities, I am dedicated to delivering high-quality work while meeting deadlines.

### Interests

#### photography

As a software engineering student with a passion for creative pursuits, I bring a unique perspective to my work. Along with my technical skills, I have experience in photography and editing, having worked on several freelance projects and personal projects over the past few years.

#### basketball

As a well-rounded individual, I enjoy pursuing different interests outside of work and academics. One of my favorite hobbies is playing basketball, which I have been doing for several years. I find it to be a great way to stay active, relieve stress, and socialize with others who share a passion for the sport. Whether I am playing a pick-up game with friends or participating in a league, basketball is a constant source of enjoyment and challenge in my life.

#### swimming

In my free time, I enjoy staying active and pursuing my hobbies. One of my favorite ways to stay fit is through swimming, which I have been practicing for several years. Swimming allows me to challenge myself both physically and mentally, and I find it to be a great way to relieve stress and stay focused.
