🪪 Profile

visit my **portifolio** ⧉ ,
As a software engineering student, I am committed to becoming a proficient software developer. I have experience in developing interactive web app development and building responsive user interfaces with javascript frameworks like **React** and **Angular**. I also work with **Express,MySQL,Mongodb.** I enjoy exploring new technologies and staying updated with industry trends. I work well in teams and am adept at problem-solving and meeting deadlines.

🧠 Skills

react	●●●●○	angular	●●●●○
interactive web development			
MERN stack	●●●●○	**data-structures and algorithms in python**	●●●●●
mongodb,Express,React,Node			
flutter	●●●●○	**communication**	●●●●●
cross -platform app development		working in teams	

🎸 Interests

photgraphy
As a software engineering student, I bring a unique perspective with experience in photography and editing.

In my free time, I enjoy swimming as a way to stay fit and challenge myself both physically and mentally. Swimming also helps stay focused.

🏅 Awards

Top performer award for Ethiopian national university enterance exam
